4. Set Title and content to each page you create.
5. **Special Attention:** The **Disclaimer** Page works differently, we using the disclaimer TITLE has the disclaimer summery in the website.
Anything that you write it the disclaimer title will show in the website has clickable to the full content.

Setup the Plugin

1. In the Plugin section go to the privacy policy Plugin (Shop => settings => plugin => privacy policy)
2. There are 4 Forms to handle: Newsletter, Signup, Checkout (Purchase) and contact

You can set to each form different

1. Privacy policy text (summery - **Important!** Max 200 text characters)
 - Privacy policy content (select the page for full information on click)
 - Disclaimer (the page that will handle the disclaimer)

Each form can have different text, PP and disclaimer

Option 1: Using PP text + using PP linked page

The text will have only 1 link (1 clickable info)

Option 2: Using PP text + Custom tags + **NOT USING PP linked page**

When you want to have more than 1 link in the PP text

Example:

I confirm that I am aware of and accept the Privacy Policy provisions and I undertake to comply with them

[link:510001] = The page ID

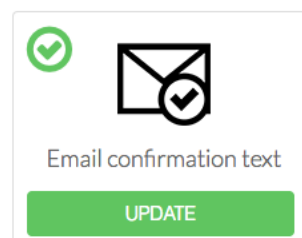

You can see the IDs under the selection of PP linked page.

3. The Plugin will successfully save only when all the PP text forms fill-up
